*“In spring and summer 2018, CICIC is consulting assessment services and competent recognition bodies in Canada on a draft of the proposed Global Convention. This includes reaching out to Registrars in postsecondary institutions in Canada. The information collected is intended to inform provincial and territorial governments' decision-making processes with respect to the possibility of Canada's signing the proposed Global Convention in 2019.*

*If you have any questions about the consultation process, please contact CICIC.”*
